

Sechenov University – 265 Years of Tradition and Progress:

*How New Technologies Shape Medicine
and Education*

Vice-Rector for International Affairs
Mikhail Brovko

The Best Medical Education – More Than 265 Years

Medical faculty of
Moscow Imperial University
1758

University Campus on Devichye Pole
1897

First MMI (First MOLMI)
1940

I.M. Sechenov First Moscow State Medical
University
2010

The first faculty clinic on Rozhdestvenka
1846

First Moscow Medical Institute (First MMI)
1930

I.M. Sechenov Moscow Medical Academy
1990

Sechenov University in Numbers

Top-92 (Pharmacy & Pharmacology)
Top-250 (Life Sciences & Medicine)

THE LARGEST MEDICAL
UNIVERSITY IN RUSSIA

27000

students

6000+ | **114**

international
students

countries

235 educational
programs

16 master's degree
programs

80 areas of PhD
programs

*Every year Sechenov University graduates more than **4,000** specialists in
Medicine, Pharmacy and Biomedicine*

Advanced medical care and cutting-edge research

**ONE OF THE BIGGEST
MEDICAL CENTERS IN
EUROPE**

5
Hospitals

75 000
In-patients

50
areas of high-tech
medical care

144 000
Out-patients

Traumatology

Cardiology

Genetics

Radiology

Neurosurgery

Robot-assisted surgery

Oncology

LEADER AMONG RUSSIAN MEDICAL UNIVERSITIES
IN TERMS OF SCIENTIFIC RESEARCH

1573

PhD

13

joint labs with
industry

645

Doctors of Science

4000+

papers annually
in Scopus

115

departments

25

Scientific and
educational centers

BIOMEDICAL PARK

Sechenov University: Digital Technologies in Education

New e-learning modules and online courses

Sechenov.Online

digital learning environment

Adaptive learning

Learning history

Real-time analytics

Central medical hub for knowledge and technology exchange in Russia

Sechenov University Campus "School-21"

In collaboration with the tech giant **Sber**

No traditional lectures and professors

Self-directed learning process

Training in Project Lab

P2P knowledge sharing

Areas of study:

Basic Programmer skills

AI and Machine learning

Software Architecture

UX/UI design

Data analytics

Project Management

Digital Learning Center at Sechenov University

DocAI system project

AI-based platform automates the search and analysis of medical data and scientific research

Implementation in 2025

adapts information to individual student needs

processes large volumes of information

The goal

to simplify medical student training

DIGITAL LEARNING CENTER

- DevOps in medicine
- Developer of digital medical services
- Analyst of medical data
- Developer of VR/AR solutions

Innovative Digital Technologies

«Virtual Patient»

*digital system has been developed and implemented at Sechenov University since **2021**.
Today, it is used in **8** Russian universities*

THE SYSTEM INCLUDES:

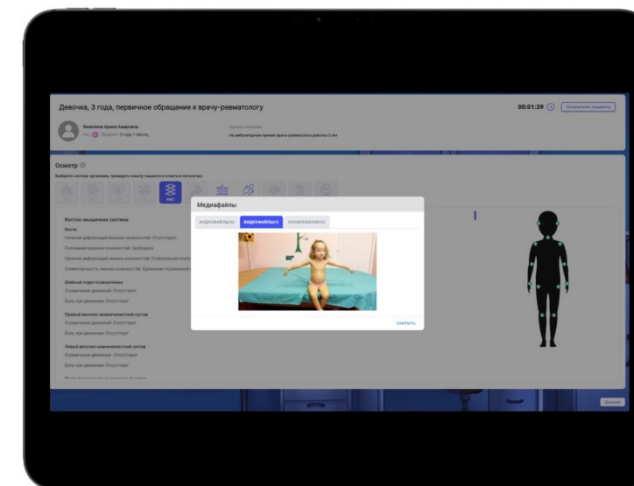

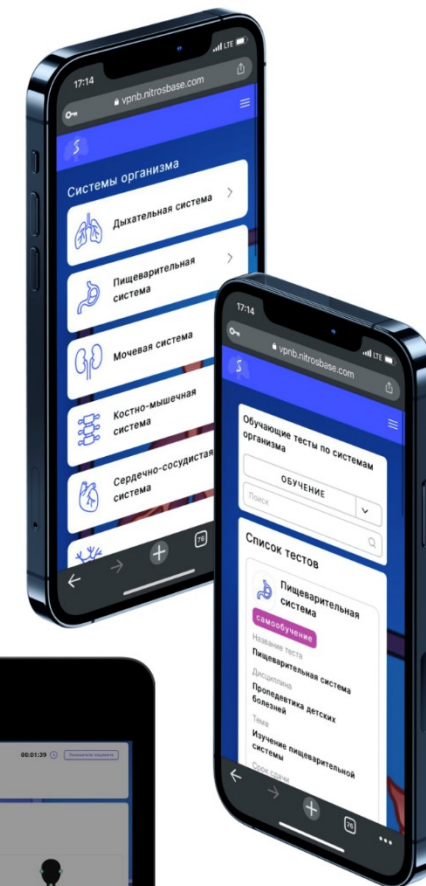

Interactive training material based on clinical guidelines

Automated generation of new tasks (cases) based on reference systems and available media material

Automatic system for assessing tests and tasks (cases)

Training simulator

*Future plans include implementation of **GPT-based AI models**
and an **AI-powered medical decision support module***

Sechenov University: Leading in Medical AI in Russia

AI in diagnostics Cardiology, Oncology

AI-based computer vision

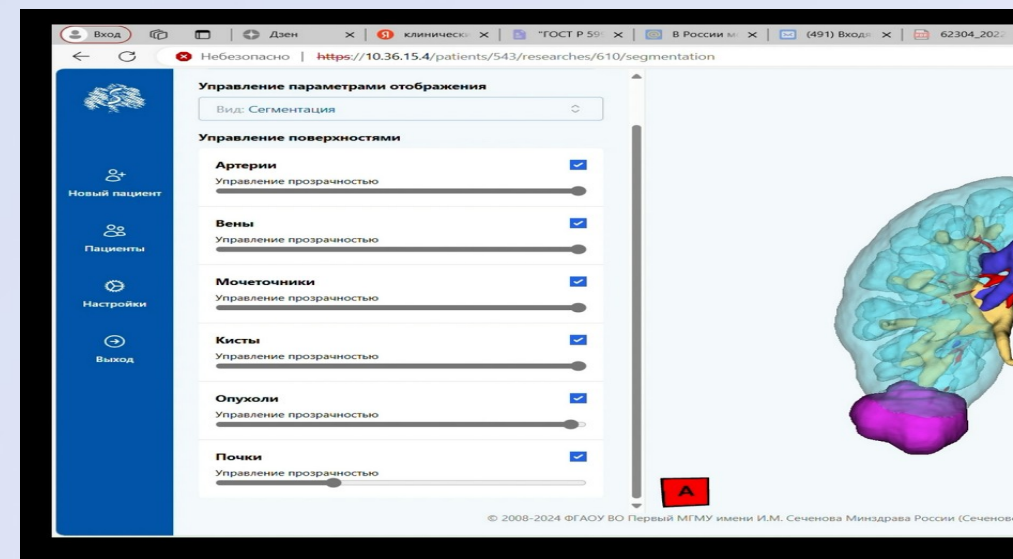

Tumor identification

Automatic marking of pathology slide using AI

AI in surgery Urology

CT scans merging for a more precise
imaging of renal tumors

Thank you for your attention
